### Fashion Friend-zy: FALL INTO FASHION!

Flare-up for cooler temps and hotter styles!

By Genny Iannucci

With fall at our doorstep, it's time to kick-start your wardrobe with the pieces that you'll reach for over and over during the season. These are the items to buy now, wear now and wear throughout the cooler months ahead for instant wardrobe update and loads of fashion mileage.

Nine West at Town Shoes. Leopard print pump, \$130. [townshoes.com](http://townshoes.com)

**'Camel lot'** - Cool and classic camel takes center stage this season. Wear it head to toe in timeless turtle necks, wool trousers and smart wrap coats. For a new twist, mix camel with gray for an elegant colour duo. Jackie O would definitely approve.

**'Get Spotted'** - Sophisticated leopard prints prowled the catwalks, but with leopard, a little can go a long way. Turn to this print in footwear, handbags, belts and scarves for an upbeat edge to neutral red, black or camel. Meow!

styling is an instant style maker. Toss it over a feminine dress or team with skinny jeans or pants. Choose black for ease in working back to your wardrobe.

**'The Straight and Narrow'** - A dominant pant silhouette this season, slim and skinny leg pants are everywhere! Available in denim and dressier fabrics, rock these pants with longer length jackets, tops or cardigans to help balance proportions.

**'Boot It'** - Whether in suede or leather, a

neutral or a deep, rich jewel tone, the open-toe bootie hits its stride with jeans, skirts, dresses and trousers. A personal fav' (so very sexy!), wear sans hose early in the season. As temps start to drop, pair with tights, leggings or leather sockettes.

**'Ladies First'** – Lady-like dresses with a sexy 60's vibe put the hourglass shape in sharp focus. These retro-chic numbers highlight the waist in both slim and full-skirted styles. Put a lock on the look with kitten heels, pointy flats, a structured bag and cat-eye glasses.

Fall into fabulous fashion and have fun!
